## APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,  
 and do hereby grant the same, subject to the following limitations and  
 conditions: This permit is issued subject to all existing rights on  
 the source. If well is flowing, a valve must be installed and main-  
 tained to prevent waste. The well shall be equipped with a 2-inch  
 opening, and an air line and a parshall flume. The location of the  
 latter to be approved by the State Engineer. It is understood that this  
 right must allow for a reasonable lowering of the static water level  
 at permittee's well due to any other ground water development in the  
 area. This source is located within an area designated by the State  
 Engineer pursuant to NRS 534.030; therefore, the State retains the right  
 to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount  
 which can be applied to beneficial use, and not to exceed 6.0  
 cubic feet per second., but not to exceed 5.0 acre-feet annually.

Actual construction work shall begin on or before February 15, 1968

Proof of commencement of work shall be filed before March 15, 1968

Work must be prosecuted with reasonable diligence and be completed on or  
 before February 15, 1969

Proof of completion of work shall be filed before March 15, 1969

Application of water to beneficial use shall be made on or before

February 15, 1972. Proof of the application of water to beneficial  
 use must be filed with State Engineer on or before March 15, 1972
